LED	3000 K	infrared sensor 180°	max. 10 m	Wi-Fi 2,4 GHz WiFi	Camera	Intercom system	inclusive	IP44	60° vertical, 128° horizontal
long life LED 50.000 h	3000K warm-white								

Function description

Multi-talent with a focus on security. The XLED CAM 1 SC is an outdoor spotlight, motion detector, surveillance camera and intercom all in one. If the 180° infrared motion sensor with a range of 10 m detects a movement, the light comes on automatically. At the same time, a push notification appears on the smartphone or tablet if desired. And the swivelling HD wide-angle colour camera delivers surveillance images in excellent quality directly to the mobile device. So you always know exactly what is happening in the garden or around the house. But you don't just see what's going on. You can also hear it. Thanks to the integrated intercom, it is even possible to make direct contact and communicate with the visitor. The micro SD card with 16 GB storage capacity integrated in the light serves as a storage medium and automatically records everything that goes on after movement is detected. At the same time, the smart sensor spotlight shines with warm white 3000 K and 2310 lm and is amazingly economical in consumption at 21 W - not least thanks to the high-quality and bright reflector. The free app is available for iOS and Android.

Technical specifications

Dimensions (L x W x H)	167 x 210 x 275 mm		Reach, radial	r = 2 m (6 m²)
Mains power supply	220 – 240 V / 50 – 60 Hz		Reach, tangential	r = 10 m (157 m²)
Sensor Technology	passive infrared		Continuous light	selectable
Output	21 W		Photo-cell controller	Yes
Interconnection	No		Twilight setting	10 – 10000 lx
Vernetzung via: Connect Bluetooth Mesh	Wi-Fi		Time setting	60 s – 15 Min.
Lichtstrom Gesamtprodukt	2310 lm		Basic light level function	Yes
Stroboskop-Effekt (SVM)	0,3 SVM		Basic light level function time	all night
Gesamtprodukt Effizienz	110 lm/W		Main light adjustable	30 - 100 %
Colour temperature	3000 K		Functions	Iintercom system, Camera
Colour variation LED	SDCM3		Soft light start	No
Colour Rendering Index	= 80		Impact resistance	IK03
With lamp	Yes, LED lamp		IP-rating	IP44
Lamp	LED cannot be replaced		Protection class	I
LED life expectancy (max. °C)	50000 h		Ambient temperature	-10 – 40 °C
Base	without		Housing material	Aluminium
LED cooling system	Passive Thermo Control		Cover material	Glass transparent
With motion detector	Yes		Manufacturer's Warranty	3 years
Detection angle	180 °		Einstellungen via: Connect Bluetooth Mesh	Wi-Fi
Angle of aperture	45 °		Installation site	wall
Capability of masking out individual segments	No		Version	Anthracite
Electronic scalability	Yes		PU1, EAN	4007841065294
Mechanical scalability	No			

Detection Zone

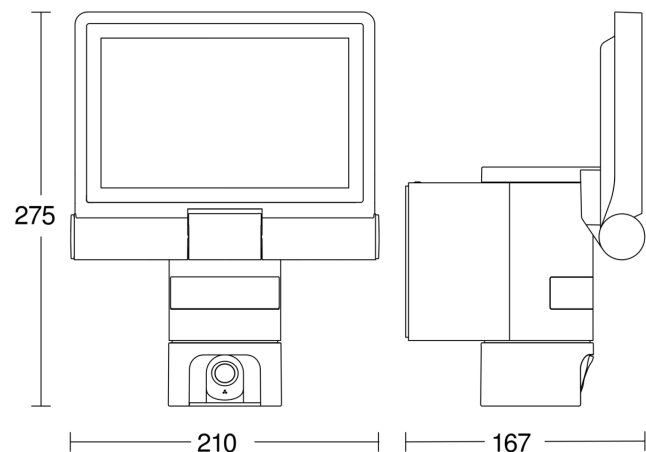

Mögliche Montagehöhe: 1,80 m – 2,00 m
Orange: radial
Schwarz: tangential
